

PHILIPS

The road to product release

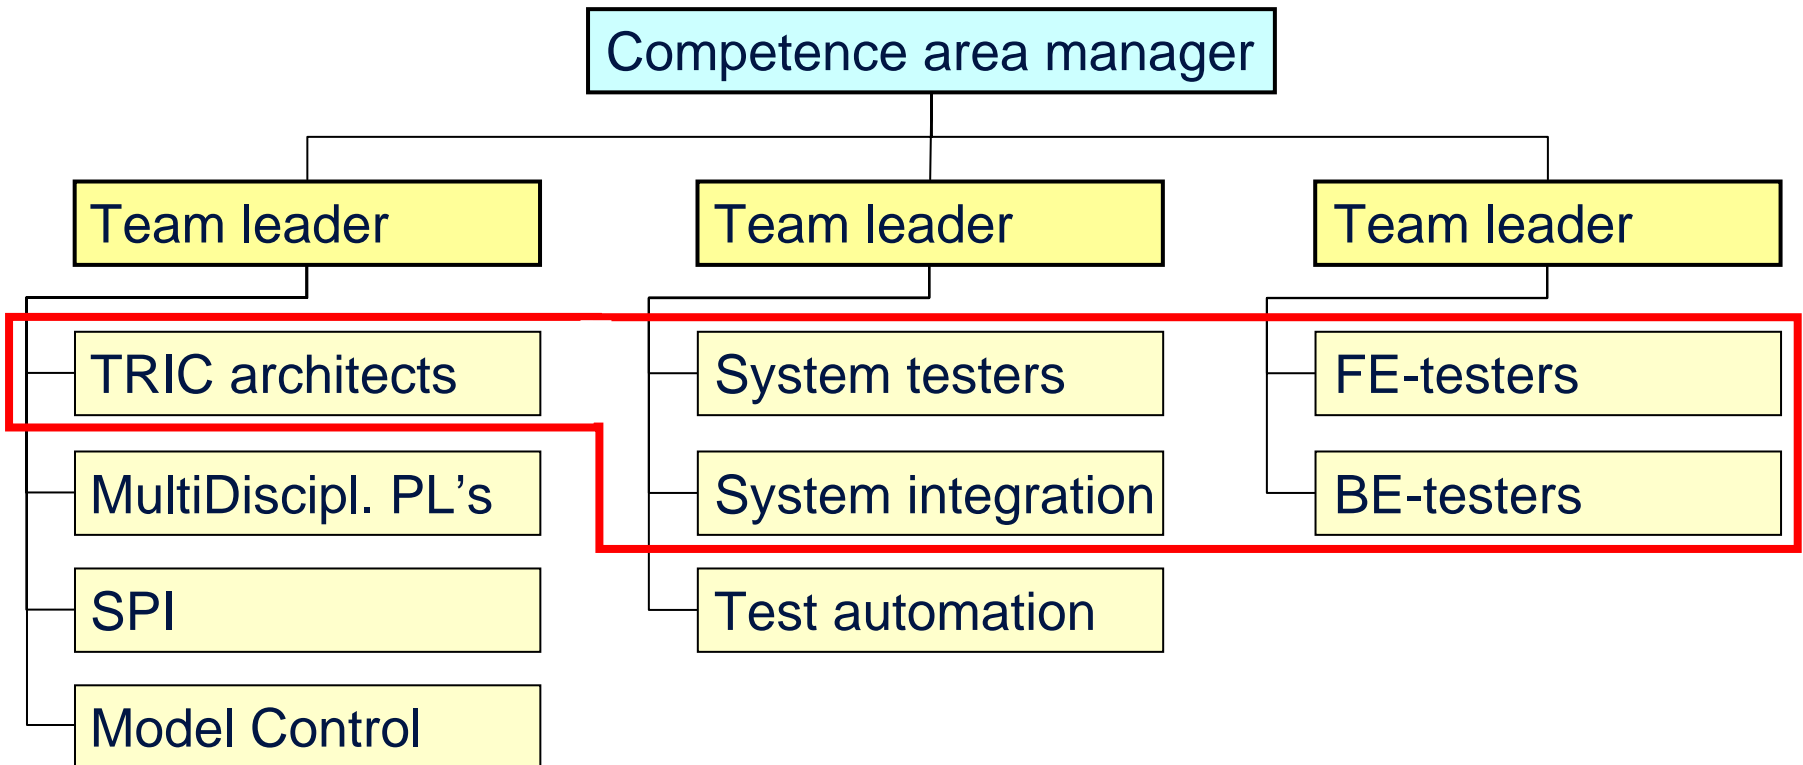

Wim van Rooij
TRIC - architect
System Integration & Test
TestNet Event
11 December 2007

Agenda

- Test organization
- Test policy & strategy
- The road to product release
- Facts and figures

I&T Organization Diagram

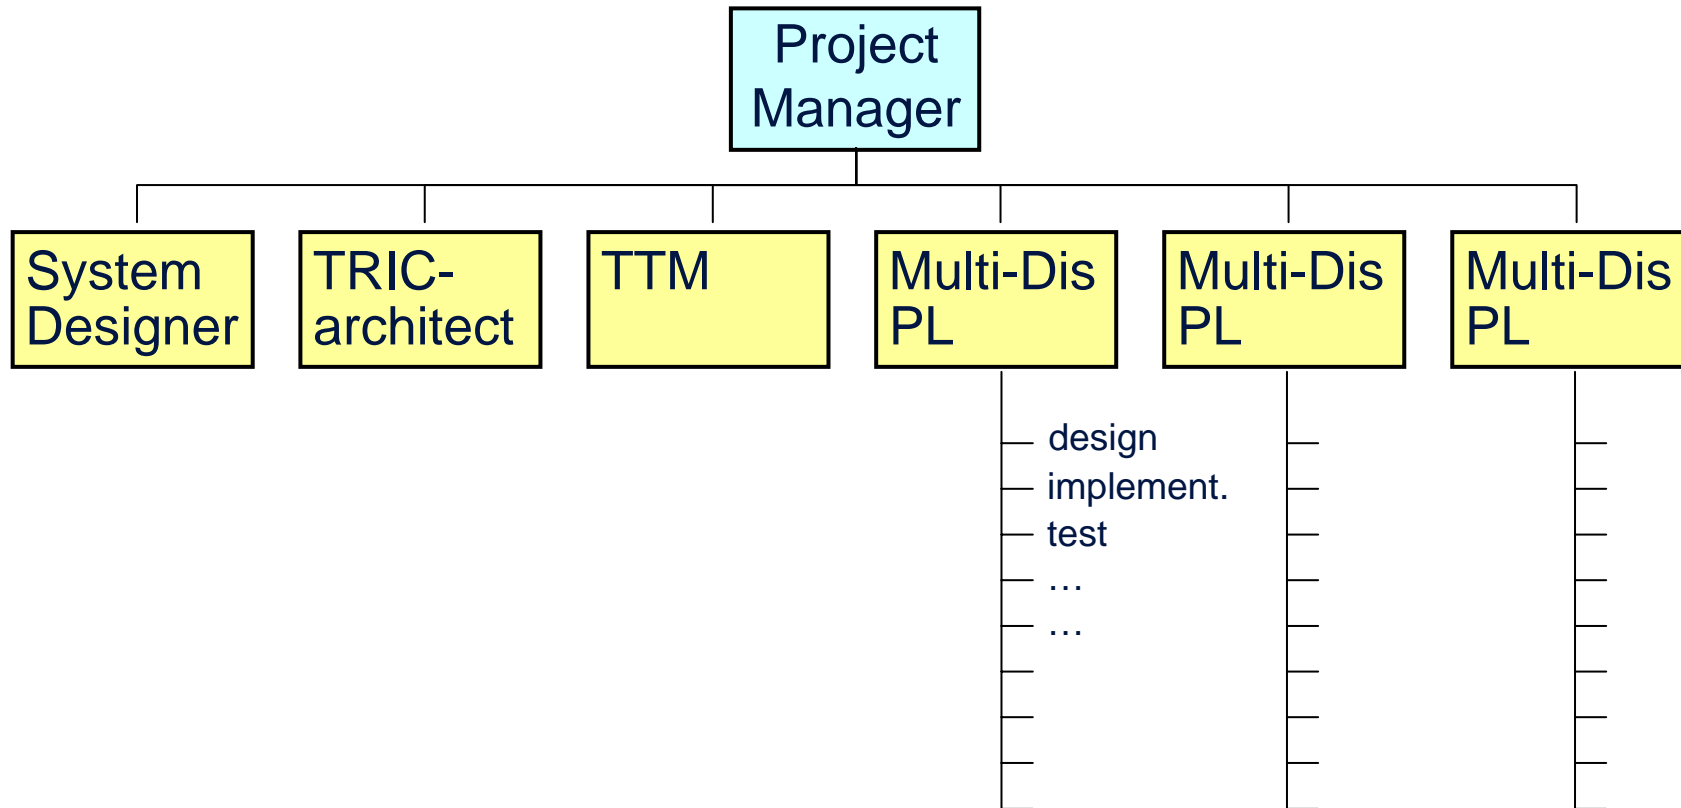

TRIC architect

- Test, Release, Integration & Configuration architect
- Product risk analysis & Test strategy
- Test decomposition
- MTRP, MIP & MTEP
- Quality criteria supplier deliverables
- ‘Lower level test coverage’
- Quality insight
- Overall release evidence, SRT

Project organization

Profession knowledge

- ISTQB foundation
- ISEB practitioner
- training
- workshops
- work instructions / guidelines / templates
- congresses

Product knowledge

- Factory installation
- Design requirements
- Instructions For Use
- Training Philips Holst Center
- System Designers
- Colleagues

Domain knowledge

Field

- Hospital visits
- Field monitoring
- Flying squad

In-house

- Application
- Operational profiles

Agenda

- Test organization
- **Test policy & strategy**
- The road to product release
- Facts and figures

Test Policy

Mission

To release products with proven quality insight that enables the BL-CV to be the recognized leader of X-ray centered, minimally invasive solutions, designed around patient and clinician, excelling in clinical outcome & workflow efficiency

Test Policy

Level	Purpose
SIT	<div style="border: 2px solid blue; padding: 10px; text-align: center;"> <h2 style="color: blue; margin: 0;">Vision on Integration, Testing and Release</h2> </div>
FAT	
SAT	
SRT	

- Early validation:
- Risk based testing:
- Release evidence:
- Supplier quality evidence
- Exit- and entry criteria:
- Quality attributes:

Policy
Translated to values for operation

Test Strategy

	Development Tests	Functional Acceptance Test (FAT)	System Acceptance Test (SAT)	System Release Test (SRT)
Objective	<p style="font-size: 2em; color: red; margin: 0;">test phase</p> <p style="font-size: 4em; color: red; margin: 0;">operational definition</p>

Product Realization Process

- MTRP
- Risk matrix
- Test allocation
- MIP
- 1st level estimate

Product Realization Process

Product Realization Process

MTRP contents

Assignment

- Product to be released
- Items covered
- Items not tested

Test strategy

- Risk analysis
- Approach for new functionality
- Regression testing
- Quality characteristics

Product Realization Process

MTRP contents

Test and release decomposition

- Functional Acceptance Test (FAT)
- Single Release Test (SR)
- System Acceptance Test (SAT)
- System Release Test (SRT)

Test agreements

- Supplier projects
- Supporting specialists

Product Realization Process

MTRP contents

Test organization

- Organization structure
- Roles, tasks and responsibilities
- Specific project skill needs
- Communication and reporting
- Test environment
