## IMPACT OF AGILE SCRUM FOR THE TESTER

**Scrum evangelizes the Team responsibility without roles**

- Scrum recognizes no titles or roles in the Scrum Team: There is no longer a 'Tester' in the Team. A Scrum Team takes up accountability as a group to deliver working Increments of Software, and to make sure all required work is done.
- Specialized or functionally limited roles like 'Tester' could lead to micro-handovers, mini-waterfall behavior, Team members blaming each other or waiting for something to be delivered from another specialist first.

**Former Tester is part of a Scrum Team**

- Multi disciplinary
- E.g. writing user stories (interchangeable with requirements specifier)
- Learning to understand software development
- Learning consultancy skills (soft skills) to understand business stakeholders
- Test automation is the way to go and testing activities become more technical
- No more test logging because bug feedback to developer is instant

## ESSENTIAL SOFT SKILLS FOR THE (FORMER) TESTER

- **Communicative skills** – face-to-face communication within the Agile team as well as with the business belongs to the daily work of the Agile tester
- **Team Spirit.** Working in teams and continuously improving performance includes proactive behavior and conflict handling skills
- **Responsibility** – the Agile tester should have a high sense of ownership like any other team member
- **Self-organization** – the Agile tester should be able to plan his own work and continuously contribute to the planning of the team
- **Time management** – the Agile should understand that simplicity, the art of maximizing the amount of work not done, is essential
- **Reflection** – the Agile tester should be able to reflect on how to become more effective and adjust his behavior accordingly
- **Tenacity** – the Agile tester should be able to balance tenacity with rapid delivery, making sure agility does not harm the overall quality of the product increment

 **INTERNETCAFÉ LUNATIC**

- Het nieuwe internetcafé Lunatic wil meer naamsbekendheid creëren. Er is nu geen logo en website. Ook willen ze graag een banner die ze op andere locaties kunnen ophangen zodat iedereen weet dat ze er zijn.
- Naast internetten kan je in Lunatic ook erg lekkere koffie, thee en fris drinken. Internetten betaal je per minuut en reken je achteraf af. Het is mogelijk om een soort prepaid kaart te kopen.

## SPEELTUIJN ...LUNA-TIK...

- In de buurt is een nieuwe speeltuin gekomen. Deze wordt binnenkort feestelijk geopend door de wethouder van sport.
- Voor communicatie naar buiten is een logo onmisbaar.
- Om duidelijk aan te kunnen geven in de buurt waar de speeltuin zit, wil de speeltuinvereniging graag een banner, die ze op kunnen hangen.
- Daarnaast willen ze een website, zodat ze openingstijden, speciale activiteiten e.d. onder de aandacht kunnen brengen. In de toekomst zal deze website nog worden uitgebreid.
- De speeltuin is bewaakt, geopend op gezette tijden maar gratis toegankelijk

## COMPETENTIES VERZAMELEN
