Software Development Life Cycle Landscape

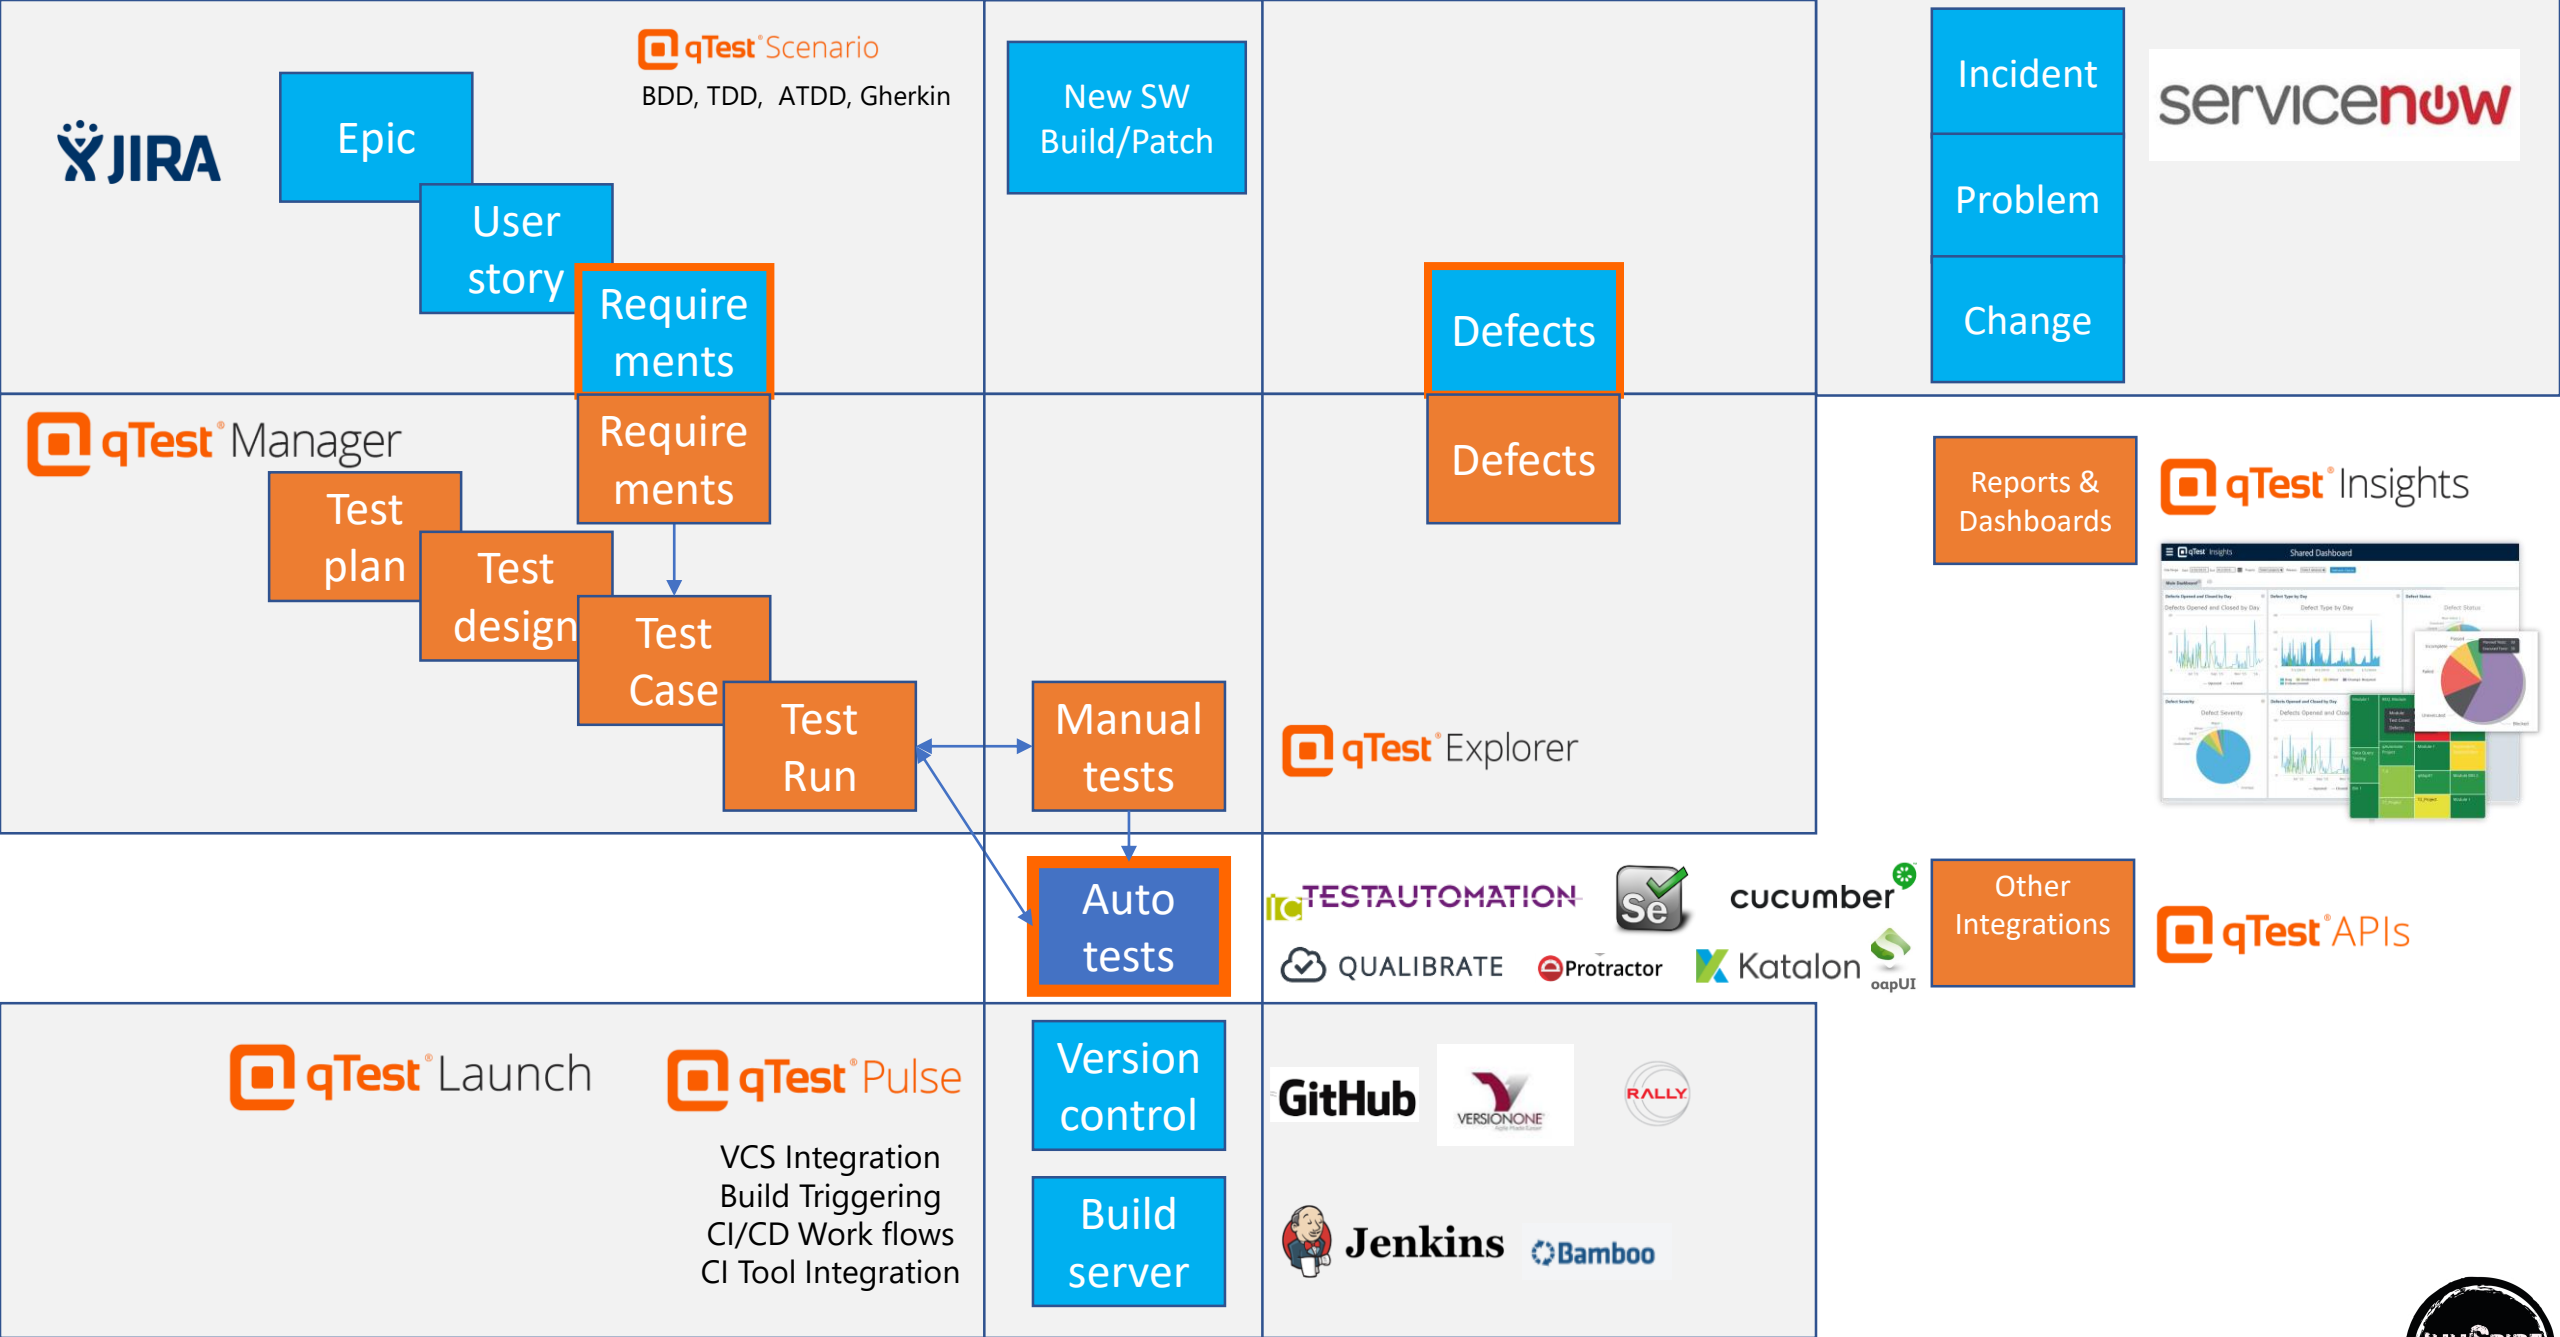

The Software Development Lifecycle Technology Landscape 2017

Test Process & Automated testing

Strategy	Plan	Execution
Test Process Automation		
Exploratory	Manual	GUI- based automation
Automated Testing		
Mobile	Crowd & usability	App Security
End 2 End	SAP +web	Brute Force
Performance / load	Security	Code
TaaaS: Test automation as a Service		
Test Data & Privacy Management		
Subsets	Testsets	Privacy

Advanced Mobile App Testing

App test

App keten test

Security test

Multi Mobile Device

Beta test

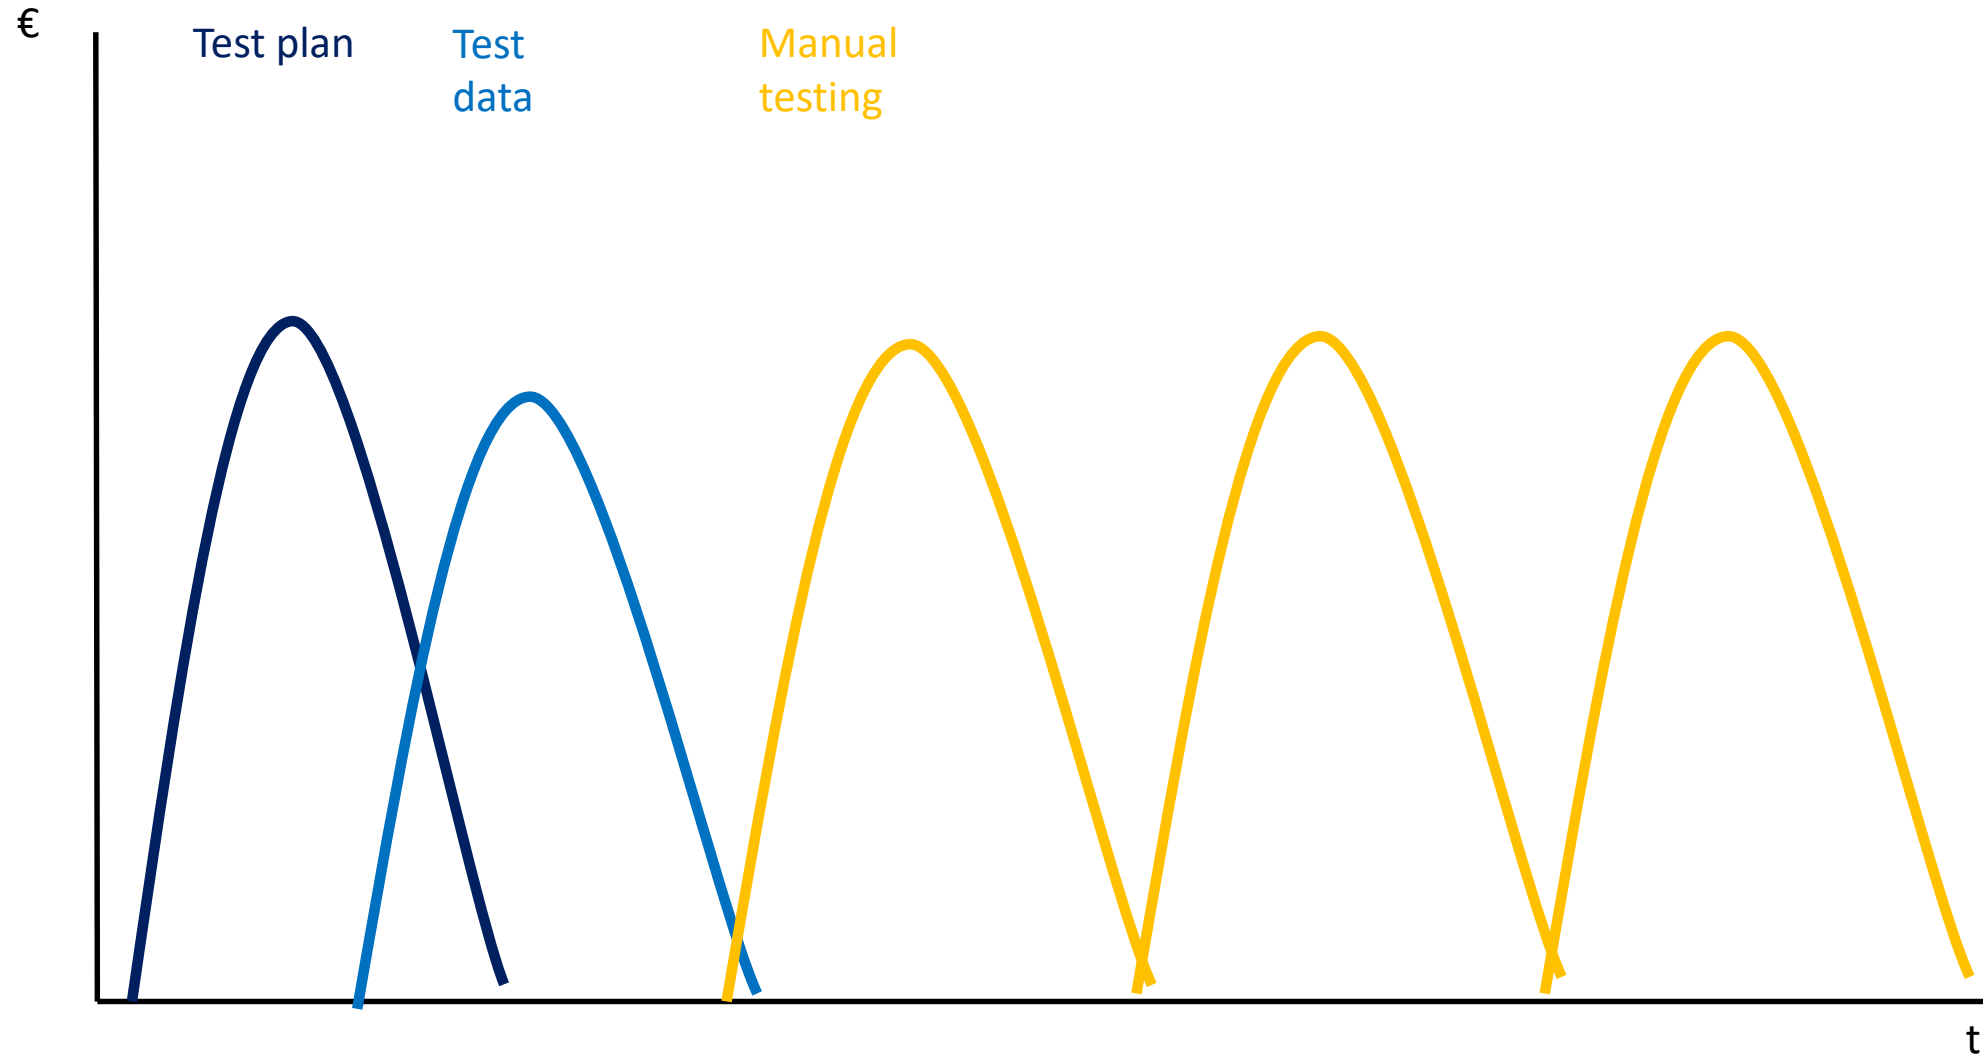

Functional performance usability

Crowd test

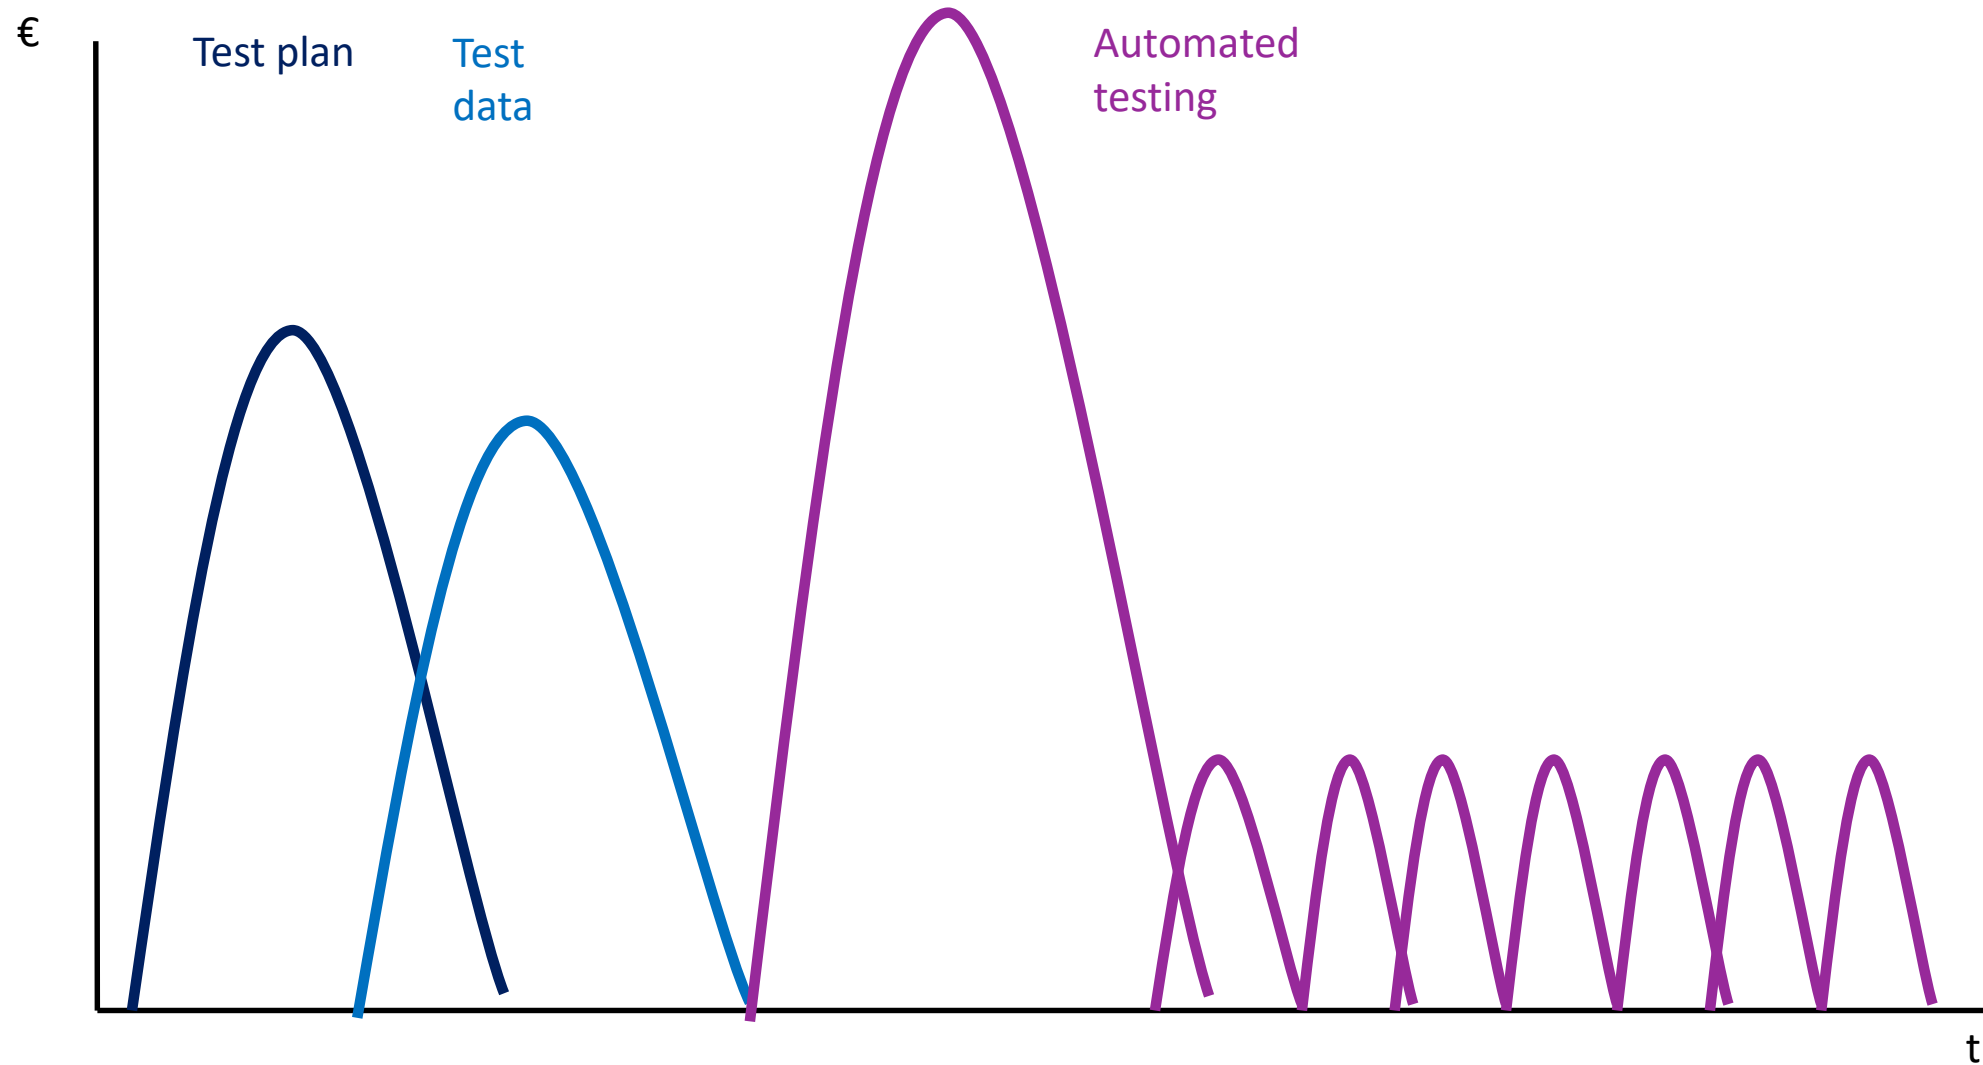

Public Live

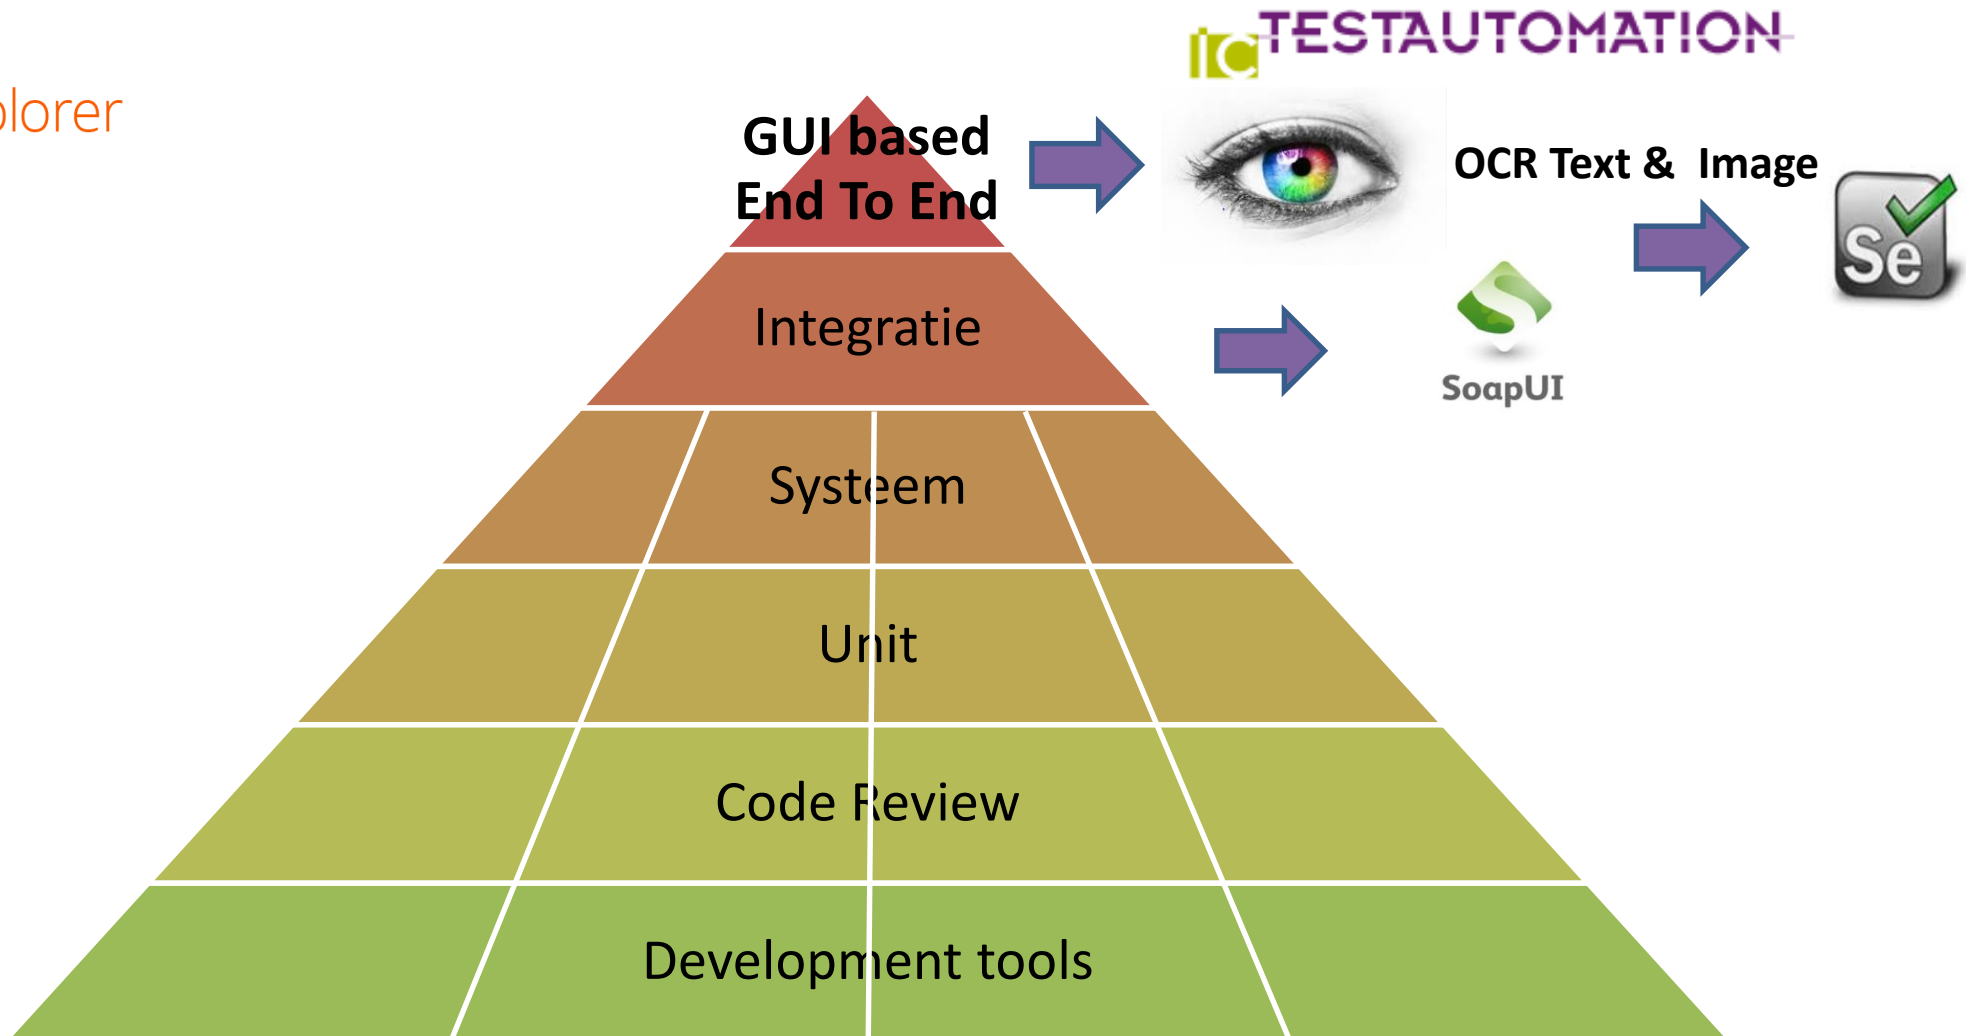

ROI of automated testing

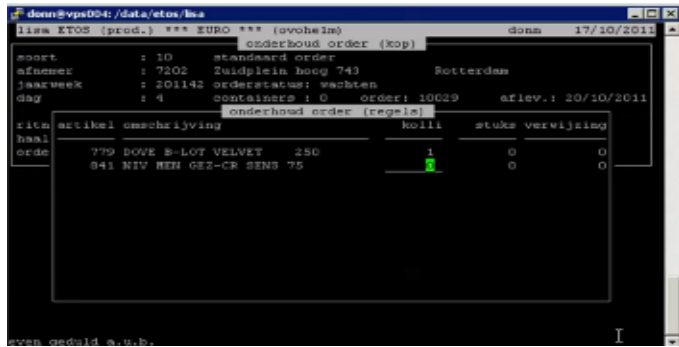

ROI of automated testing

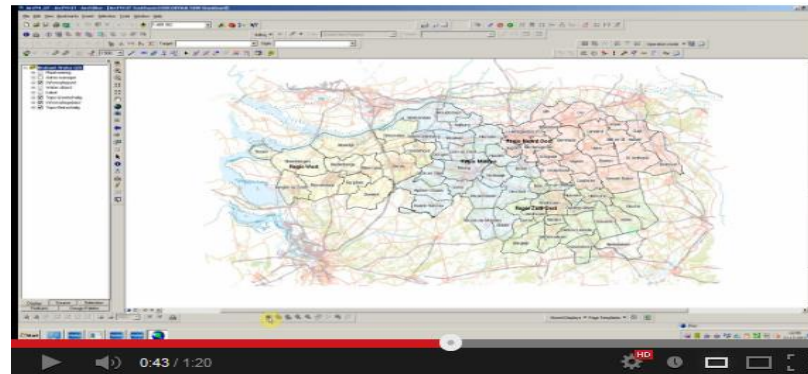

Overall test proces management

Any application - any screen - any business process

Any connection: Remote DeskTop
Connection, Putty , TelNetm VNC,
TeamViewer, Terminal Emulator
Any web browser
Any platform Windows, Linux, Mainframes,
Apple
Any VDI, Citrix, RES, Zendesktop, VMware
Horizon
Any application

Why traditional monitoring fails
